

# Jaira Micah Nunag

FRONT-END WEB DEVELOPER

## TRAINING/ACTIVITIES

### FRONT-END FRAMEWORKS AND LIBRARIES WORKSHOP

The Knowledge Academy

December 2023

In this workshop, we explored popular front-end frameworks like Bootstrap and Foundation through hands-on projects. This enabled me to streamline development, design attractive interfaces, and maintain consistency across web projects.

### GOOGLE DEVELOPERS CERTIFICATION SEMINAR: MASTERING FRONT-END WEB DEVELOPMENT

Google Developers

October 2023

During the seminar, I totally engaged myself in the world of front-end web development, learning HTML, CSS, and JavaScript with the help of experienced mentors. It was an eye-opening experience that empowered me with the skills needed to pursue Google's certification and will help me in my career in web development.

### MASTERING REACT.JS: A FRONTEND MASTERS WORKSHOP

Frontend Masters

August 2023

As a student in the Frontend Masters React.js workshop, I learned advanced concepts such as state management, component lifecycle methods, and API integration, gaining practical experience that significantly enhanced my front-end development skills.

### SEO RANK & RISE: THE BEGINNER'S BLUEPRINT TO WEB WINNING

Holy Angel University

February 2024

In this seminar, I learned about optimizing websites for better search engine rankings, covering on-page and off-page strategies, as well as technical SEO aspects like site speed and mobile-friendliness. I gained practical tips to enhance website visibility and attract organic traffic.
