JAIRA NUNAG
FRONTEND WEB DEVELOPER

About Me

I am a frontend web developer ready to guide and assist you. A highly motivated Web Developer with experience in maintaining and building multiple websites. Highly proficient in HTML, CSS, and JavaScript. I am ready to bring my passion for creating extraordinary web experiences to your team.

Training & Activities

Built a Website with HTML, CSS, and GitHub Pages

December 2022

Code Academy

Built a website with HTML and CSS, then deploying it using GitHub Pages, taught me foundational web development skills like structuring content, styling with CSS for design consistency, and deploying via GitHub for easy sharing. It also familiarized me with version control and collaboration using Git.

Google Analytics Certification Training: Mastering Data Insights for Business Success

October 2023

Google Analytics Academy

Through Google Analytics certification, I've become skilled at analyzing website data to improve user experiences and maximize speed. I now know how to use advanced metrics, like as conversion funnels and bounce rates, to inform business growth decisions. I've also improved my abilities to define objectives, manage campaigns, and use data-driven tactics to get quantifiable outcomes.

SEO Rank & Rise: The Beginner's Blueprint to Web Winning

February 2024

Holy Angel University

In this seminar, I learned about optimizing websites for better search engine rankings, covering on-page and off-page strategies, as well as technical SEO aspects like site speed and mobile-friendliness. I gained practical tips to enhance website visibility and attract organic traffic.
